RE: Dkt. # 03-00286 – Petition to amend Certificate of Convenience and Necessity

Dear Mr. Pickney:

After reviewing your petition we have discovered that certain information is needed to complete the application. Please provide the following information.

1. Are there any utility districts located in or near the proposed service area? If so, have they been contacted about providing wastewater service to the proposed service area?
2. Provide photocopies of any agreements from developers that have applied for service from your utility.
3. Provide estimates of customer growth for the next three years?
4. Would any existing businesses or residences within the proposed service territory be required to interconnect with On-Site's wastewater system?
5. What specific areas within the proposed service area will have actual customers within twelve months?
6. In the areas that will not have actual customers within twelve months when are they expected to interconnect to the company's system?
7. If the company experiences less than expected customer growth then how significant of a negative financial impact will the company suffer as a whole?
8. Does the proposed service territory contain any state or federal lands in it?

Please respond by May 9, 2003. Thank you for your attention to this matter. If you should have any questions, you may contact Butch Phillips at (615) 741-2904, ext. 183.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Gaines", with a stylized flourish at the end.

Mike Gaines
Chief
